

Egyii Company Overview

Egyii is a learning and development consultancy that helps financial organisations get better results through their people's relationship skills.

What We Do

At Egyii, we:

- help employees boost their people skills
- help executives adapt well to change
- are the experts at personal leadership
- deliver new soft skills programmes for hard results

How We Do It

At the heart of Egyii's initiatives is the Egyii Toolkit which is a group of new models and techniques powered by NLP (Neuro Linguistic Programming). At the core of the toolkit is a set of Self-Management and Relationship Management Tools.

The programmes are then built to fit seamlessly into your current curriculum, whether it be a sales process, product and technical training, or a combination.

Common problems You May Be Facing Today

- Differentiating your services from the pack
- Winning clients' trust
- Meeting targets without seeming to be product-pushing
- Motivating your team to want to push on and climb out of the crisis
- Changing mindsets so your people are ready to perform in the new world of business

Sample Solutions to Those Problems

Trust in Sales: How to be perceived as authentic, sincere and 100% client-focused

Be Your Own Leader: How to take charge of your mind in order to take charge of your results

Adapting Well to Change: How to enter the new world of work with a new mindset and new flexibility

Isn't it time for a change?
